DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 47-75 are rejected under 35 U.S.C. 102(b) as being anticipated by Jaeger et al (US Patent No. 5394846). Jaeger et al teaches an air intake assembly for an engine having a throttle body (1), a first inlet (the main bores of the throttle body), a second inlet (43), an outlet (the bores downstream of the throttle plate, and a throttle plate (7a,7b). Note in Fig. 5, that the idle air bypass tube (43) has a wider opening that narrows, somewhat funnel shaped as in applicant's Fig. 14. See col. 4, lines 33-61.

3. Claims 47-75 are rejected under 35 U.S.C. 102(e) as being anticipated by Sharpton (US Patent No. 6647956). Sharpton (see Fig. 6) teaches an air intake assembly for an engine having a throttle body (10), a first inlet (21), a second inlet (31), an outlet (22), and a throttle plate (12).

4. Claims 47-75 are rejected under 35 U.S.C. 102(b) as being anticipated by Carlson et al (US Patent No. 4337742).

Allowable Subject Matter

5. Claims 30 and 33-39 allowed.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
